

CADROL CARBOHYDRATE CONTACT REPORT

21 March 55

Date, Time, and Place of Meeting: 18 March 55, 1900-2130, CARBOHYDRATE's Apt.

Present: a. ☐ b. CARBOHYDRATE

1. The greater part of this meeting was devoted to a detailed report of CARBOHYDRATE's discussions in Fran. CARBO had delivered an 8 page handwritten report on this subject (attached). Points to be noted from the report are:

a. Schmidt (the younger of the two lawyers for CARCARANA 2, with whom CARBO had spoken) stated that the espionage grounds had always been considered a fix "hot iron" and had caused some trouble with the court.

b. Schmidt agreed to inform Napp immediately upon the latter's return of the discussion with CARBO and push for withdrawal of espionage as divorce grounds (since no witnesses can be found to give proof), and substitution of denial of ehelichen Verkehr as grounds.

c. CARBO agreed to persuade Simoni to secure CARCARANA's "confession" to the denial of Verkehr.

d. CARCARANA 2 had shown suspicion of CARBO's motives at first. She apparently feared (illogically) that CARBO was trying to block the divorce. Finally she saw that he was only objecting to the espionage grounds.

e. CARCARANA 2 wanted CARBO to promise, which he did, that he would induce Simoni to secure from CARCARANA the latter's agreement to the son's leaving Germany with his mother, CARCARANA 2. Simoni could assure CARCARANA that he would not thereby lose ~~simoni's~~ the son forever and under all conditions. (CARBO reported that CARCARANA has already given in written form to his mother and Napp a legal statement in which he gives up the "Sorgerecht" for the child. This does not amount to a relinquishment of the "final right", however. It is true that CARCARANA must agree to the child's leaving Germany).

f. CARCARANA 2 stated that she has already ~~made~~ made application with the U.S. Consulat in Frankfurt for permission to enter America.

2. CARBO reported that he had visited Simoni on 7 March as earlier discussed. The latter agreed in all details of the Frankfurt arrangement, but suggested waiting to make any approaches to CARCARANA until definite word had been received from Frankfurt that new grounds had been substituted for espionage.

3. On the same ~~same~~ day (7/March) CARCARANA's mother asked CARBO whether she should say anything particular re the divorce action in a letter to CARCARANA which she was going to write on 8 March. CARBO suggested that she write that difficulties have appeared in ~~connection~~ connection with the divorce action. CARCARANA should not be surprised if he received new proposals. This would be the best solution for both parties. ~~and~~ CARCARANA would do the best thing by going along with the new proposal...etc. It may be noted ~~here~~ here that the mother can write CARCARANA once a month.

4. CARBO delivered written report re his meeting with former MA "Peter Bauer", whose DOR residing father had been approached by the SFS for the purpose of recruiting the former MA. The latter is now Westberlin Gerichtsreferendar, at one time worked for a short period part time for ☐ (the SFS still thinks that he is still there, apparently). A number of visits were made by the SFS to the father; the latter bucked them away using illness as an excuse. Finally the father was forced to visit his son, who then asked

CARBO for advice. It was agreed that a flat "no" would be delivered to the SFS, with the father carrying a letter to this effect from the son. Further, ~~the father~~ and a copy of the letter are to be reported to CARBO. See attached report for further details.

5. CARBO delivered written report giving further info on earlier reported arrest of former MA Ewald ~~Manhens~~, born 17/5/11, Pankow, Zillerthalerstr. 57. The father of the arrestee, who lives in East Berlin, had been requested by Pesch of Org-Abt. to query the former MA's lawyer ~~for~~ (Jura Expert, Berlin Weissenhof) concerning reasons for the arrest. The info relayed by the father ran to the effect that the MA ~~against~~ CARBOIT instructions had tried to take large numbers of letters into East Berlin with him and had been apprehended at a check point. Also against CARBOIT instructions, the former MA had kept books on the number of letters mailed for CARBOIT and remuneration received therefrom (the traditional little black book). This had been seized by the authorities. The former MA received a five year sentence. Attached report gives further details.

6. CARBO replied in answer to query that nothing new had been heard in connection with Vogel.

7. The following additional info re ~~the~~ CARBO's trip to Fran was secured during discussion during later parts of the meeting:

a. CARBO had not tried to get much ~~xx~~ info from CARCARANA 2 re "Bob", the flight mechanic, in order to avoid the information that he had come only to elicit info in order to block the divorce.

b. "Bob" is in the U.S. now, his tour having ended. He expects to be joined by CARCARANA 2.

c. CARCARANA 2 works with a marriage office (Heiratsvermittlungsbuero) in Fran which is located in Wolfgangstr. It is a big business, has 46 branches in Germany. She is a typist, earns ~~225~~ 235 DM/mo.

8. CARBO reported orally that Ohlsen had requested a visitor of interest to visit the CALCINO house at ~~1234567890~~ 0900 on 8 March. The visitor was at the house promptly at 0900. Since no one was in the house, he asked some neighbors what went on in the house, who had their offices there, etc. He began to get rather noisy in his remarks and complained about the way in which he was being handled. As Fril. K. later telephoned CARBO, one of her people (ein Mann von uns) had to go to the police precinct at Adenauerstr. A Kripo official telephoned ~~CARBOIT/CARBONHYDRATE~~ CARBOIT to inquire if the instructions given by CARBOIT to appear at CASTANIA were right. CARBO answered that it was all in order. The Kripo official said indicated that this satisfied him. It was shortly thereafter that Fril. K. from CALCINO house called CARBO to ~~describe~~ describe what had happened. She explained that her office hours begin at 1000 and implied that CARBO had made an error in sending the man over at 0900. Checking showed that Ohlsen had sent many persons over at 0900 with no untoward reaction in the past--this had been SOP. CARBO had not been informed of any change in Fril. K's service hours. ~~He~~ thanked CARBO for the report and told him that the matter would be looked into--he could forget about ~~in~~ any repercussions but should be sure that no persons were sent over before 1000. CARBO's report closely paralleled our intercept of the Kripo official's call, indicating that CARBO was not trying to make more of the incident than the facts called for.
